Each classroom is equipped with electricity and other accessories like blackboard, chalk, duster, desks and benches.

## **Boy's and Girl's common room**

The institution has separate common room for both girls and boys with toilet facility. There are two secretaries for each common room who have to look after the issues related to girls and boys common room. There is one male secretary for Boy's common room and one female secretary for girl's common room.

## **College canteen**

West Silchar College has a canteen which serves light refreshment and lunch to students and staff. During special occasion, the canteen generally arrange special menu as per request. The guests visiting to the college are treated with special food prepared at our college canteen. The canteen remains opened in all working days and even on non-working days it provides facilities with prior information to the canteen owner by the authority. The College canteen also caters to the functions organized in the college like seminars, training programmes, annual function, sports meet and workshops etc. Canteen staff takes care to provide the students and staff of the college a nutritious and hygienic food at the campus. The canteen advisory committee keeps vigil on the service quality, quantity and quality of the edible staff and beverages sold in the canteen. The canteen supports tobacco free and plastic free campus. Most importantly, the canteen provides meal to students and staff at a very minimal price.

## **Fast-aid Facility**

The college has all the necessary first-aid kit for giving immediate first-Aid treatment to sick and needy students and faculty members. The students with serious illness are immediately taken in to nearby hospitals and parents are informed immediately.

## **ICT Facility**

The institution has to depend on limited financial resources and has been recently provincialized by the Government of Assam. And as the college has offers only single Arts stream, so it's IT Infrastructure has in the process of development but still the institution has been updating its available IT facilities time to time and providing the facilities to its users. Library and office of the college has computers and other equipments necessary for them. College office bearers regularly monitor the college website and has regular interaction with IQAC coordinator. A Computer of the office section and a computer of IQAC room are installed with necessary peripherals like printer and scanner. The entire campus of the institution is enabled with Wi-Fi facilities. College has one smart classroom with LCD projector and smart TV.

The college campus is under CCTV surveillance covering office room, departmental rooms, library, classrooms, corridor and other parts of the campus. It helped to maintain safety and security of the institution as well as to create peaceful educational environment.

There are 15 computers for students' practice.

## **Internet Facility**

The entire campus of the institution is enabled with 24x7 Wi-Fi facilities provided by BSNL Bharat Fibre with speed upto 80 Mbps.
